[Aaron] Aaron Robinson, and I'm 35 years old.

Jenna was phoning me up saying, 'There's an interview, do you want to go for it?' and I went 'Yeah', and I was over the moon.

They helped me get a job, that was my goal. When Jenna rang me and told me I got the job I was so happy.

Serving customers, working behind the bar.

They're really good and they're always free when you need to talk to them.

My cousin applied for a job, and she didn't get it but I said, 'Work with them and they'll get you the right help you need'.

Really happy now that I've finally got a job I wanted to do.

[Stephen Gilling] I couldn't speak highly enough about the process we've gone through with DurhamEnable.

In something like a football club like this where we have a lot of change of staff and lot of gaps and it's quite infrequent, to have somebody like DurhamEnable who can bring a different sort of set of skills to us and people who really value that work and take a real active part in the whole experience, it's been excellent.

[Rob's Mother] I think everybody should be given the opportunity, no matter if they've got a disability, or they're able bodied, or they're neurodiverse – I don't think it matters.

I think they should all be given that opportunity to try and achieve what they want.

Why shouldn't they have a job and be like anybody else?
